# GLYCERINE

**CREMER OLEO is one of the world's largest independent suppliers of vegetable and sustainable glycerine.** With locations in Europe, North and South America, and Asia, we are closely networked globally. Therefore, we are able to supply glycerine at short notice from all raw materials, such as rapeseed, soy or palm, in many purity grades and with dedicated certifications. We keep market-standard refined glycerine with a purity of 86.5% or 99.5% in stock in our **worldwide storage facilities and tanks**. And we also offer technical glycerine produced from tallow or recycled oils (UCO).
